14 October 2024

Dear Sir/Madam,

**Consumer Environmental Information: Consultation on draft principles for aviation consumer environmental information.**

As the airport's statutory independent consultative body, The Gatwick Airport Consultative Committee (GATCOM) welcomes the opportunity to comment on this consultation.

GATCOM did not submit a response to the previous call for evidence on this matter and therefore we feel a full response to this consultation would not be appropriate as we are aware that the draft principles set out in the consultation were developed from and informed by the submissions to the call for evidence.

GATCOM consists of members from local authorities, business, airlines and environment and community groups. This inevitably results in differing views. We have encouraged and expect many GATCOM members to submit full and detailed responses to this consultation on behalf of their own particular organisation.

However, GATCOM would like to put forward our general support for the need for better aviation consumer environmental information that would provide accurate, reliable, easy to understand and comparable environmental information to aviation consumers.

Yours faithfully,

*Monique Smart*

GATCOM Secretariat
